doing this quick video and I've entitled this video

0:22

um trademark law for dummies especially in martial arts

0:28

okay so I've done a split screen so what I've got here at the moment

0:34

um is I've got a couple of trademarks that are publicly available now I've

0:40

um without boring you with the details I've spent a long conversation with some trademark lawyers and also with um uh

0:48

you know IP Australia who give you guidance and all this sort of stuff okay now you see where my little cursor is

0:57

down here we'll go down here right and we have a look at the

1:02

trademark Yoon jundo in pursuit of perfection

1:07

now you notice that that's been removed not renewed renewal fee not paid now

1:17

I'll just repeat that for those who can't read removed

1:23

not renewed renewal fee not paid now

1:31

assumably you can understand that now here's another little thing for the

1:36

trademark registration for dummies uh video you can have a look at this

1:44

where are we a priority date or the date that this particular trademark was filed

1:51

was on the 29th of November 2001.

1:57

now they're only valid for 10 years and in 2021 or sorry 2011 it expired

2:06

now what happens then I'll just take you over to this side here if you can see where I'm at here

2:14

this is on trademarks uh

2:22

uh right here we go and it says the situation where a person applies from trademark

2:27

was similar your trademark blah blah blah blah blah basically here if in six  
2:35

months when you read on that particular page you can go and look at it look up and  
look it up yourself

2:41

it basically says this this is this is the trademark law and I want you to pay

2:46

attention a couple ignorant characters uh put some

2:53

um not too kind words about me on uh this was on Solomon Islands for some

2:59

reason Solomon Islands you've become trademark lawyers have you so

3:04

um if the trademark is expired for more

3:10

than six months right so in other words there's a company

3:15

tied to that trademark I don't know I think you know who who is tied to that trademark

3:22

well that particular company and person didn't bother renewing it

3:27

let it expire over 12 years ago

3:32

when it when it isn't renewed within six months and I'll just repeat this so that

3:39

you can sort of comprehend it and I'll just mention it to you

3:44

lose all legal rights

3:50

it is no longer your trademark you've forgotten about it you've been

3:55

reminded by the IP Australia IP Australia the government body up there they've sent I  
don't know how many

4:02

messages and you would have just ignored it so what happens when you ignore it then

4:07

they send you a reminder six months later to renew it again here we go

4:13

where is it we'll go back to here

4:18

removed it gets removed it was removed not renewed renewal fee not paid

4:27

so what that means is you have no legal rights to it so anyone can register that  
trademark

4:34

anyone so you think about it for 12 years that's been unregistered

4:42

right now up here um

4:48

I registered this one this trademark

4:53

right and it's been accepted right accepted

5:00

so I did the right thing legally by everything that's legal the old trademark this one down

here

5:08

was expired for 12 years that expired you know left left go for 12 years

5:14

dysfunctional doesn't belong to anyone despite a few things that I'll go and do

5:20

in a second this one here we have a look at this one this funny looking trademark here

was

5:27

one that I designed and was given to the particular person

5:33

who's registering this now I actually designed that as a car sticker

5:40

just a little bit of Truth goes a long way this one here

5:47

that's the same as this one here it's not the same as this one here

5:52

this one is a copy of what I registered this one is the original one that was

5:59

that was a trademark and was expired for 12 years so this one here

6:05

still hasn't got any legal rights because I'm first one in

6:10

right so after 12 years of doing nothing the people who

6:15

did this one which I designed actually I mean you know this character let me explain

6:21

something to you this the character in these symbols are Chinese writing

6:27

they're not copyrightable right so you can't copyright the Chinese language you can't copyright Jun or you

6:35

know any Chinese symbol you can't copyright that it's the particular

6:41

when IP Australia look at these things they look at the particular design of it and they look at the wording maybe and

6:48

then if no one opposes it now and this is a this is the reality it's a  
6:54  
little bit humorous in a way but this one here remained as I said it  
7:00  
remained unregistered for 12 years finished six months they've got to re-register so  
7:06  
not owned by anyone anymore and it doesn't really look like this one  
7:11  
here this one here is black and white this one here is in color  
7:17  
now I went and registered that because I have every legal right to do so legally  
7:24  
in Australia I can do that now the other group  
7:30  
who claimed to have integrity by the way registered this one now I designed that  
7:37  
one that's a fact I've got it on my I did it through Vistaprint as car stickers right  
7:44  
so that one there I designed now this one here there's a copy of that one  
7:51  
right so now what's happened if for those you know this is a trademark for  
7:56  
dummies video what happened is that oh God we haven't done anything for 12 years  
8:05  
so oh we better see if we can do something about Healey  
8:10  
because well if we haven't done anything now I'm sure we're going to do something you  
know this is how ridiculous this is  
8:17  
so this one down here has not got any legal rights because  
8:23  
the diet um is behind underneath like mine was  
8:29  
registered let me see registered on the 8th of August 2022  
8:38  
this one here they might as well just cancel it it looks pathetic doesn't it okay then this  
one got registered  
8:45  
the 2nd of January 2023. they're chasing their tile with me you  
8:53  
understand that those trademark intelligent people  
8:58  
so what's happened legally or they have the right to do that I  
9:04  
suppose they're trying to challenge me that they were using this before I was and all this  
sort of stuff okay normally

9:12

there would be no problem with me registering that trademark because it

9:17

had expired so that's long and short of it folks for those who think they're experts in

9:22

trademark law you better check your facts now the other thing is I'm going to go through some stuff

9:30

um I got a copy and here it is here it's a I won't I won't show you the detail

9:37

because I can publicly show you anything that's printed on the IP Australia website right

9:42

but I've got this little note and it says a statement of grounds in particular grounds to

9:50

defense grounds the defense here where are we let's have a look uh you see it's got opposition

9:57

under opposition right okay so that means that another organization

10:05

is claiming that hang on we haven't done anything for 12 years we haven't done anything

10:13

with the clubs for 20 years uh maybe we're going to do something this is how ridiculous this is right and

10:21

maybe we're going to do something with some character who is a cage fighting promoter oh

10:27

that's plenty of loved care and protection isn't it uh you know you just gotta laugh at the

10:33

stupidity anyway in what happens legally or you know within the framework of IP registering

10:41

trademarks right the if they want to defend whatever

10:46

they're doing they've got to put a statement in to IP Australia and then that goes to a

10:52

hearing with an adjudicator in IP Australia and it and you know becomes this big long

11:00

drawn-out affair right but at this stage here

11:05

I'm the one who's registered ahead of time so I've got the the thumbs up now

11:11

this group here because this one's expired 12 years ago

11:18

they're now trying to catch up right and they're associating with the

11:23

character that I've spoken about on on certain other videos that has no formal Australian

11:31

qualifications just all stuff that claims he's done himself

11:36

and apparently apparently uh suddenly

11:41

he's a marketing Guru marketing Guru and a coaching Guru and uh gee whiz why not

11:48

how did he suddenly materialize after all this time after 20 years of doing nothing the whole system shut down in

11:56

2000 I'll tell you why in a second I've done that in other videos and uh the trademarks are all expired

12:03

the business wasn't even operating nothing was going no no license is nothing now see to get a license to

12:10

operate you need a trademark got it

12:15

there isn't any trademark right you can you can fabricate stuff you can do a drawing on the wall and

12:22

claim that you use that first before someone else now I'll go into this in this in this

12:27

document I won't give you the details that are written down but it was previously on the site then it's sort of

12:33

come back to me from a lawyer and all this sort of stuff so I'll just do the headline so what happens is that the

12:40

trademark lawyer or whoever's handling this particular case uh will look at the

12:46

trademark law and they go okay section 52 section 53 section 54. and I'll just

12:53

give you a little bit of insight into it you know I won't read you what they've said here because it's usually it's like

12:58

try and bag Graham Healy day uh but the trouble is that I've got lawyers that show me all this stuff and

13:05

they have to they have to they have to State a case well you know after 12 years of doing nothing and 20 years of

13:13

inactivity from 2000 uh we're going to do something now yeah this is how stupid all this is but

13:20

anyway it's got section 58 in the trademark act it says the applicant

13:26

is not owner see you've got to State a case and it says the applicant is not owner of the trademark

13:34

excuse me that's expired

13:40

the person who wrote this document and you know it is not the owner of the trademark either

13:46

that's stupid this is right so okay section 51 if you want to look up the

13:52

trademark at the applicant me who's already got it registered here and then there's an opposition

13:58

uh is not the owner of the trademark well uh

14:05

nor is this character you know you can't be an owner of the trademark it's expired and as I said

14:11

clearly and there's the trademark offices you lose all legal rights

14:17

finished don't do it within six months you'll either go for 12 years out the gate

14:22

they've got to try and argue that they raw you know this is ours you know now okay that's section 58 covered

14:30

and the applicant is not owner of the trademark well uh as I said it's all expired so anyone not just me anyone can

14:38

register that trademark you've got over in Fiji where they're using it with some sort of Association you've got down in

14:44

New Zealand none of those people have been officially authorized to do anything because the trademarks lot is

14:51

out of date it's it's uh simply uh um not legally valid anymore simple as that

14:58

okay now you've got another little title here and it says trademark is similar to a trademark that was acquired a

15:04

reputation in Australia now

15:10

that reputation in Australia

15:15

wonder what reputation that is hmm

15:20

is that the reputation where every Chief instructor resigned by the year 2000

15:26

is that the reputation where funds I.E

15:33

money was transferred out of various countries illegally was that the reputation we're

15:39

talking about was that the reputation where the chief instructor of Fiji Reginald Joken

15:46

wrote a resignation letter which I have full copies of and can print out at any time publicly

15:52

with Reginald's permission I mean I've had that for years and it goes into detail about the

15:58

non-payment of taxes to the Fijian government

16:05

now I'll just tell you something about that this is tax law for dummies now right

16:14

if you no matter who you are no matter who what martial arts master you are whether your Koka shinkai or karate or

16:21

Taekwondo or you know Bruce Lee or anyone you go to another country such as Fiji

16:30

PNG Solomon Islands New Zealand

16:36

you take money out of that country be it cash will be transferred into your account

16:43

for example grading fees and you do not pay tax in that country

16:51

it's a criminal offense it's jailable that's right mysteriously

16:59

in the year 2000 when the chief instructor of New Zealand uh not New

17:04

Zealand excuse me of Fiji wrote his resignation letter which I know exactly

17:10

what's in there and I can at any time put that letter on a public place

17:16

was all talking about tax debts wonder why

17:22

Fiji was left alone in the year 2000. think about that

17:27

in Australia here is here's the next one laundering

17:32

money for dummies in Australia now I've got all this connected you know I'm not stupid  
you haven't figured that out now

17:39

I have a med science degree I've got lawyers around me I don't do anything without  
checking it out correctly and

17:46

you know a lot of people are trying to claim I don't have integrity or

17:51

something and I'll tell you you know I had one character from the Solomon Islands claim  
that I'm a liar right

17:58

now when he did that one of the highest ranking martial art instructors in this

18:05

country who is uh fully lined with the Japanese ninjitsu

18:11

Society he's a veteran Soldier he's a well-known security

18:20

guard and a federal policeman defended my reputation and also he's

18:27

been a martial arts person for 44 years defended my reputation for me isn't it

18:32

great when people of high integrity defend other people of high integrity

18:39

yeah you see I've never lied to anyone and I've never done anything that hasn't

18:44

got integrity and that's why I stand by it because over the years I've known I

18:49

know that if you do something and you don't do it honestly it'll blow back in your face

18:55

so here's one the blow back in the face those non-payment of taxes in the South

19:02

Pacific Islands it's a criminal offense it's a jailable offense so that's why a certain person  
didn't go

19:08

back to Fiji you'd wind up in a Fiji jail eating Carver or something okay got

19:13

it right that's so much for uh where are we

19:20

uh yeah anyway I don't know where I got on that subject but we'll cover it anyhow

19:26

so in Australia like overs there's been several masters

19:31

of various Styles come over to Australia right like tight cash money

19:38

in their back pocket are The Splendid at the casino well that's a lot of Integrity I'm

19:44

gambling your money or they take it back to the various countries be that career  
19:51  
be that China or in one case I know of be that Ireland  
19:59  
now this is a story in Australia you have to pay withholding tax  
20:08  
if you don't it's a criminal offense jailable then if you're taking out more  
20:15  
than 10 grand out of this country it comes under the terrorism Act  
20:22  
so you know maybe this is a lesson a legal lesson for dummies about  
20:28  
laundering money so we'll move on so you know if people want to challenge me about  
what's legal  
20:34  
and not legal uh you know you'll be very careful very careful okay  
20:40  
um say oh that's right the trademark this is a section 60. they'll write a whole  
20:46  
lot of rubbish here but the trademark is similar to a trademark which is acquired a  
reputation in Australia  
20:54  
what's that for laundering money is it okay all right well that's a fact  
20:59  
so um now the next one is trademark is  
21:06  
scandalous holy hell it's scandalous or contrary to the law  
21:14  
so section 42.  
21:20  
you know this is how stupid this is this is what you call amateur half hour  
21:25  
regarding legalities you see that one down there here's my name okay  
21:31  
that uh trademark scandalous and contractor  
21:36  
the law that's expired all legal rights are gone so again section 42  
21:45  
just complete BS as usual then we go on here trademark is likely  
21:50  
to deceive or cause confusion oh God no  
21:56  
it's not going to cause confusion is it I'll tell you I'll tell you what's going  
22:02  
to cause confusion now as I've said on all my all my other  
22:08

I mean this is just a joke all my other videos is this I am

22:15

the original Yoon jundo International instructor

22:22

I am a founding instructor

22:27

I'm in all the damn videos I'm in all the television interviews

22:38

didn't have silver hair then and myself an instructor founding instructor Sunny

22:46

Ryan traveled to PNG in 1991.

22:54

as the first International yunjando instructors

23:02

and what's more myself

23:08

and SAS Sunny Ryan SAS Soldier

23:13

you know muck around with sunny Ryan I'll tell you good mate of mine

23:20

we put money into it we put at that time there was 1989 we

23:26

put five grand in each right now that would have been equivalent to 20 grand today

23:33

oh we have hard-earned money to found yunjando

23:39

all right remember back with General Choi the founding instructors

23:44

you know you talk when those remember that don't you well we were there as the founding instructors of Union day

23:52

now one of those instructors I don't recognize anymore because

23:57

um he embezzled money from my organization the isda international self-defense Association

24:04

now I've got all that in writing if any of you amateur uh oh gee that's

24:09

wrong that's right you want to challenge me on it go straight to my website I'll put you

24:14

on the page and you can download the full legal history and you will see these characters embezzled money they

24:22

embezzle badges in that they didn't make money in the I'll tell you something here's something here's here's another

24:29

fun fact in uh in the year 2000 to 2005 I was a

24:35

founding president of the international self-defense Association now I'm going to reboot that

24:41

but during that time uh you know I put together all these so-called in well you

24:47

know there's some quite respectful instructors some have passed away uh one of the main ones is uh Grand

24:54

Master Peter Wong from the ITF was my personal friend and uh he was basically

24:59

an advisor and he was part of it as well but you know he sort of stood back at the

25:05

end of it now I ran every single year five years running Iran seminars every

25:12

single year right during the time that Iran seminars they

25:18

never lost money and I'm the only one of the group being

25:25

the president that ever got sponsorship money how about that me

25:31

poor old G H they're all trying to try trying to defame me in the background at

25:37

the moment right so I'm the only one who got money into the business

25:43

and then a little group went led by one little character that I

25:50

kicked out for embezzling money and assaulting my son and others but my

25:57

son in particular which uh you know I can still pay back on that

26:04

but you know I'm a bigger person in that fool so um these people then embezzled money but

26:12

they never made any money you see so um I I supported that organization was

26:19

my organization basically right so they all got on board and then decided when I put

26:25

sponsorship money in then their true characters came out and the particular

26:31

character at the moment who's claiming to be a qualified coach and all this other sort

26:37

of business but as an actual fact she promotes cage fighting so that's sort of in line with you and jundo isn't it you

26:42

know love care and protection and cage fighting and ridiculous so

26:48

um at the end of the day you know I keep saying on all these

26:53

videos it's all about integrity now why I've always stuck with Integrity is

26:59

because when things happen like this like all this stupidity going on I know what I'm doing you know I know exactly

27:05

what I'm doing I know who's up who and who's paying the rent and I also know who's done what to whom and it's all in

27:12

writing so why I kicked out that certain character

27:17

from the isda all in writing we've got written letters there you know

27:23

Etc so anyway I'll just leave that one I don't want to Hash over the past

27:28

um so the trademarks lightly this is section 43. the trademarks are likely to

27:34

deceive and cause confusion there isn't any confusion I'm a founding

27:40

original instructor when we did the three months full time

27:45

with uh Yoon GM Yoon he never even had the patterns together

27:52

right and I Sonny Ryan and a certain other individual which I don't recognize

27:57

anymore and Roy tapuni we were selected out of 500 black belts

28:04

most of them ITF black belts right 500. so these characters that are coming out

28:11

and trying to criticize me now uh just I'll just pull your head in a

28:16

little bit I'm one of the 500. you're not right that's like you criticizing

28:22

General Joy or that you tries and criticizing Park juntae are you trying to criticizing uh Chong chilri or

28:29

criticizing uh rikiara you you know I'm a master of my own right

28:35

and uh you've got to show a bit of respect if you're a martial arts student everyone else I'm involved with shows

28:42

respect because I know I'm a man of integrity and when it comes to all this

28:48

stupidity I know exactly what I'm talking about because um you know around me is lawyers I'm not

28:54

stupid you know what I mean I could be or it could be the aborigine this all must be real but the other thing is what

29:00

I'll say to you is this if people put up these documents

29:05

wherever they put it on IP sending them to IEP sending him you know doing all

29:11

these sms's or maybe they're putting it on their Facebook oh look you know heal exists heal he's at Heelys everything

29:18

well Healy was the one that Grand Master Yoon rang up

29:25

six years ago to reinvigorate Yoon jundo so don't you

29:33

guys forget that it wasn't me who contacted him

29:41

I resigned in 19 93

29:46

for the same reasons I resigned again in 2022.

29:52

you get it The Grandmaster contacted me because he

29:58

had done nothing for 20 years left everything in disarray

30:05

I hadn't registered any trademarks let it expire it was finished legally

30:10

finished yeah don't you whoever you are

30:18

try and uh debase my reputation because it stands on its own two feet then

30:25

during covert I spent a lot of money

30:30

trying to build a basic Yoon jundo model

30:36

for the future this was the Grand Masters plane with me

30:41

if you must know the truth and every single week he would ring me up for six years and

30:49

I'd go over to his place two to three times a day oh a week

30:55

and discuss all this stuff you know I know what I'm doing I gave him a plan

31:02

but he didn't want to do anything he procrastinated and procrastinated and procrastinated and plus you know we're

31:09

in the middle of covert and of course what he wanted was this he wanted me to build a club of 200

31:16

students right he thought this could happen overnight during covert I mean it was

31:22

just ridiculous and then what he was going to do from there was use my club because I'd built Big

31:30

clubs before my club in town so that 100 students right back in the old Chong Chul three

31:36

days and had a gym with 2 000 members so you know I'm not some half with amateur I

31:42

was actually the only yunjun Dao instructor that ran a professional Club I mean as far as numbers Jim and all

31:48

this sort of somebody had a I had a center equal to the Master Sports Center you know

31:54

swimming pools everything right so when you talk to me show a bit of respect

32:01

so um he contacted me and I I spent day and

32:07

day and day spent a lot of time you know just talking the old same old

32:13

stuff same old stuff like a broken record but in the meantime the Grand Master had not registered any trademarks

32:20

he had not licensed anything and he had left all the clubs rot on the vine for

32:27

20 years since the year 2000 that might have been because of the resignation from Reginald

32:33

joken in Fiji with all the tax stuff right so don't talk to me about integrity

32:41

there's a lot of stuff I know that if I really get going you would get

32:47

a big shock but I'm not going to go down that road because that could be you know not worth it

32:55

actually because as I'm talking in the past now right so the trademark causing confusion I'm

33:01

the original instructor with sunny Ryan and and um uh Roy to burning and the other bloke I

33:08

don't even recognize any of his qualifications because basically coaching wise with uh go the other guy

33:15

sent him an SMS and asked him what Australian Sports coaching VTEC

33:21

qualifications that he got none anyway okay

33:27

um that's just a little point I've got all of them I've qualified a lot of the other instructors with it and

33:33

here's another point the Grand Master in the old Albion

33:39

headquarters tried to register a registered training organization back in I think it was the year 2000 or

33:46

something like that when all this all went haywire and he was going to do these courses

33:51

right and they're all out of date now they're all just you know I know I know this I've got I've got a you know I've

33:57

got a University degree it's far above the VTEC qualifications

34:03

right now I'm not putting that down but I'm saying I understand all that stuff and I am

34:09

a registered Taft teacher and I've got a certificate for in um um training and assessment which which

34:15

means that I can assess all these documents you know you've got to know where I'm

34:21

coming from you don't know what level that I'm coming from I'm not I'm coming from an uneducated level

34:27

so let me get get me back to that story so The Grandmaster uh tried to register

34:34

an RTL I think he did eventually register now that's all gone expired 20

34:40

years ago and he was going to uh do something with

34:45

registering or training students and and you know having them with a some sort of

34:51

V-Tech qualification well that that that's all explained

34:57

all that stuff's 20 years ago now it's like Groundhog Day for God's sake so uh what I did I linked in with the

35:06

Grand Master Barry Johnson who's the Coco chinkai master in Melbourne uh trained personally by masayama

35:13

and I went went ahead and did exactly what I said I said this to the Grand Master and about not uh I think uh 1993

35:22

in my resignation letter I told him what the way of the martial arts instructor will be and that's qualified coaching

35:28

qualifications personal training qualifications now having more let's say options than just

35:35

a black belt because that's just a black belt it doesn't give you coaching qualifications people may think it does

35:41

but it's not recognized by the government or any teaching organization so that's another video

35:47

so I went ahead and did it and so at my association with Grandmaster Barry

35:53

Johnson of Koka shinkai karate school wound up being the biggest

36:00

educators of martial arts instructors in Australia we put collectively and I was part of

36:07

this we put 20 million dollars into the Australian economy

36:13

Grandmaster Barry Johnson is a very smart man and a absolutely excellent martial arts instructor

36:20

and I got all my coaching qualifications I.E diploma and sports coaching diploma

36:26

in sports coaching specializing in martial arts right through

36:31

uh since I Barry Johnson and his organization which by the way qualified

36:37

all the major Masters in this country you know Grandmaster Tino soprano

36:44

Grandmaster um a Grandmaster

36:49

the IP Grant you know the um Ip Man William Chang Grandmaster William Chang

36:56

none other than the director sentence descendant of Ip Man and Bruce Lee's

37:01

senior instructor senior student him and Bruce Lee took on all the gangs in in

37:07

Hong Kong this is who you're dealing with and my best mate associate Bobby

37:13

gabashek who I brought um Commando Krab Macaro here Bobby garbage is is the first  
37:21

um uh Wing Chun instructor in Serbia and is currently running a big security

37:26

organization entirely I can rattle off some names these are

37:32

all men of great integrity with great lineages to the the the

37:38

greatest masters of our era they all know me I communicate with them on a daily basis

37:45

almost so don't you talk to me about integrity

37:52

whoever you are now let me go on the trademark might deceive and cause

37:59

confusion see this is all rubbish because their trademark the original ones expired 12

38:06

years ago and they put another application in and trying to they're trying to back up lost ground now let's

38:11

have a look over here this is the last one application made in bad faith

38:18

oh God the application that section 62a

38:24

made in bad pain how can it be made in bad faith when I'm an original founding instructor

38:31

I'll tell you what's in bad faith and this is the grandma he knows this

38:39

he can this is during the lab before I resigned in 2022 the Grand Master

38:44

approached me to rebuild his website now I spent and I've still got the link

38:51

to it I've got it all there it hasn't been activated but I can I can give anyone the link so you can this is proof

38:59

well over about 10 Grands worth of work three months did all the photographs you know scanned

39:07

hundreds of photographs all this sort of stuff

39:12

then when it come to payment he suddenly got amnesia

39:18

this seems to be a common denominator so don't talk to me about bad faith don't

39:25

talk to me about integrity because I've only just scratched on the

39:31

surface so you know I'm closing off this video now just uh just to set set the  
39:37  
record straight so just remember I'll finish this off here this one here  
39:43  
and I'll take the cursor down do you see this one here expired 12 years ago it's finished  
39:50  
anyone Billy blogs off the street could register that  
39:56  
this one here the one I registered right I'm the original instructor for  
40:01  
God's sake I'm the bloke that was on the floor when they were doing the patterns in the  
grandmas had not had even worked out the  
40:09  
patterns so I'm a founding International instructor picked down one out of 500 black  
belts  
40:16  
apparently you know thank God the other black valves didn't get involved right  
40:22  
this one here I designed that yeah I've still got on Vistaprint if you  
40:29  
want to see it you experts out there I gave that to the Grand Martha and he used that  
was supposed to be for his car  
40:37  
he's used that to register sometime after I registered  
40:44  
this one here right that's another one that they registered  
40:49  
uh which is a copy of the one I registered so in in IP law  
40:56  
this is how it is facts folks nip law uh  
41:02  
you know I don't know what the Grandma's is trying to do resurrect the dead or  
something he sort of put his um he's done a last  
41:10  
what I call didn't do anything for 20 years let everything run  
41:15  
down to nothing came to see me six years ago to rebuild  
41:20  
uh yunjando and build a big Club up and all the rest of it  
41:26  
and covert hit you know as usual and I just all I heard was you know  
41:33  
repeat repeat Groundhog Day from the past you know I know it's not in the parts  
41:39  
folks you know you guys out there good luck with dealing with this other character you  
know the expert that's

41:45

doing coaching you know Bits of Paper and all this sort of stuff yeah just

41:50

just asking where his coaching qualifications are recognized by the Australian government there isn't any so yeah you tell the guy

41:58

to stick to cage fighting that's what he does he's a cage fighting promoter so yeah you know how that fits in with um

42:06

uh the philosophy of love care and protection and cage fighting so maybe they should change it too

42:12

love care and protection and cage fighting where we bash people to pieces on the floor and break their arms and

42:18

stuff yeah that that to go down well so um I'll leave it at that folks I mean

42:25

the thing at the end of the day I'm moving on and I just thought I'd just uh put this

42:30

one up there because you know it's just a crock of BS at the end of the day and

42:35

people get confused when they see all this stuff oh God it's legal oh you know I got lawyers around me I've

42:42

got good people that actually live by Integrity they can decipher between fake

42:49

and reality and I'll just repeat this for one last time for those couple of characters that

42:56

contacted me from the Solomon Islands yes I am

43:02

one of the original founding instructors of yunjando who put money

43:11

into it startup capital therefore I have ownership rights on anything

43:19

including the badges you with me it was never a one-man show

43:25

if it was a one-man show then the Grand Master should have taken us down

43:31

to Brisbane full-time where we did that at our own expense and he should have footed the bill but he didn't he asked

43:38

us for money that's the reality now I'm happy that happened and I've got no

43:44

disrespect for the grand Masters history however my personal opinion is is

43:50

business Acumen sorry you know that's what that is why you and John does come

43:55

unstuck it's because there hasn't been the Integrity or everyone starts to

44:02

think is supposed to be there well I've just named a few things such as you know where did their gradings

44:10

money go off these um various Islands without paying tax and all this sort of stuff that's a reality I've got letters

44:16

on it and all that now that's in the past I could drag that up 100 times but

44:21

I know all the Masters used to operate like that all cash in hand I know who used to spend money in the casino

44:28

your money your gradings money you know I was with uh Chong Chul

44:34

for years I've been to the casino with Chong Chul with gradings money I know how they operate

44:42

I know what happened over in Korea with the Olympics how much money went under the table I'm

44:48

privy to all that so don't try and think for one minute

44:55

that you are at my level of understanding with all this stuff and who has done what to whom and who's been

45:02

honest and who's not been honest right and even the character they got the grand Masters grabbing onto with

45:09

desperation good luck there I don't recognize this character I've eliminated him off my website altogether

45:15

because he's basically embezzled money from the isda with others but and other things you

45:21

know sold in the Sun for instance so you know that's okay forgive and forget you know that's in the past I'm not digging

45:27

up the past you guys can dig up the parts get your shovels out and dig the gravestones all up and go oh yeah yeah

45:33

it's been dead for 20 years we're going to raise the Dead sorry it's over it is over it was good

45:42

back in the day before the chief instructors including me being a chief instructor realized it

45:48

was all about one person and supplying funds to that one person it wasn't really about you right so

45:55

these days it's been different ball game I'm moving ahead and I'm restarting the

46:01

international self-defense Association and I'll just select you know leaders

46:07

real leaders who are impervious to graft and Corruption and I'm not

46:14

starting another bureaucracy um it will be a forward moving uh

46:20

organization that recognizes what your particular skills are

46:26

in your life history like in my opinion you know was basically a refined version of

46:34

Taekwondo there's a little bit of philosophy in it but to me it's not better than General

46:40

Choice philosophy of of you know perseverance self-control and Domino spirit and integrity

46:47

uh we can make up all little different things of philosophy and then we get and get all the very complicated belt

46:53

grading system but it's not not meant to be complicated martial arts isn't meant to be

46:59

complicated if you want to defend yourself it better be simple no so the direction I've gone in and I I

47:08

went in well and truly before Grandmaster Ewan contacted me six years ago how old would you develop my own system

47:15

you know it was a combination of boxing my family's a boxing family the father was Queensland state champion I'd

47:21

Boxster as an amadroid box professional so I know what I'm doing in the boxing area and then of course I was with Chong

47:28

tari for years and then joined Grandmaster Yun and the ITF I think I introduced ITF to Townsville

47:35

from I think unless someone else went earlier than me and then I was the founding instructor

47:41

one of the founding instructors the regional instructors of who paid startup Capital to begin young doe so no matter

47:49

what anyone tries to downplay my position in the show I stuck money into it and recently uh in that last year and

47:57

the year before I also put in a lot of money and advertising and promotions and all

48:03

this and I built The Grandmaster another website which he had an Amnesia about when it come to paying for it so you

48:10

know this seems to be a common denominator so I'm not worried about any of that

48:15

where I'm going is you know I've got my own history I'm a master of my own right

48:20

I've got my own qualifications I've got all my University degrees and stuff which is far more than most

48:27

and my system just telling you the forward thing which I've done in a couple of videos my system's got boxing

48:34

I know what I'm doing in boxing otherwise I'm getting the fingers here boxing it's got

48:40

Taekwondo slash engender basic kicking you know all the basic kicks and the third thing let's have a little three

48:46

fingers there we go the third thing is Commando Krav Maga training you know

48:53

knife gun defense ground defense all that sort of stuff I brought the original Monty Isaac the original

48:58

Commander Krav Maga founder to Australia me made me National director instantly

49:04

because of my organizational abilities that's why Grandma's Yoon contacted me knows when I start something I'll finish

49:13

it so I'm saying to all you characters out there good luck if after 20 years you

49:18

think you're going to resurrect stuff from the dead and then you think the Messiahs walked in uh with uh you know coaching manuals and

49:26

all this sort of stuff great good luck there just watch the taxes uh paid in your country

49:33

um have a look at the money trial yeah

49:39

be careful be careful who's got Integrity if that's one of the tests I use is money

49:45

what does people do with money how do they interact with other people with money

49:51

today's your answer and that's where Integrity lies the people I associate

49:56

with are never ever ever had any problems with money never with me they'll they'll back me up a

50:03

hundred percent some of the best Masters in this country they know how I'm with business

50:08

integrity I know what I'm doing so folks in the future

50:14

I'm recreating the international self-defense Association and that will launch off in

50:21

the beginning of 2004. and I'll let you know what's going on there so when I do workshops and that

50:28

you won't be locked into a system that was dead and buried 20 years ago you will see an advanced system which

50:34

all the instructors are doing now anyhow I mean uh you look at um the various

50:39

Taekwondo instructors uh like for instance if you example Grandmaster Jamie Moore for instance you know he's

50:46

got uh you know he's ITF Master he's organizing the the ITF games and uh plus

50:52

you know he's he's got uh you know kickboxing um division of his ITF Type window so

50:59

you know he's a grand master of his own right so he can create his own system exactly

51:05

what I've done so I've always been a forward-thinking guy

51:11

futuristic Forward Thinking and the the the way of the future in my opinion my

51:17

personal opinion isn't turning the clock back to yunjun day 20 years ago

51:22

it's moving forward with an advanced version based on who's teaching you

51:28

now without doubt in his day grandmason was one of the technically best martial

51:35

arts instructors and I respect him for that but these days I'm sorry folks it's all

51:42

over it's finished you can argue about a dysfunctional

51:47

trademark that's been forgotten about for 12 years you can argue about oh God we've done nothing for 20 years suddenly

51:54

we're going to jump down to the Wong cemetery and raise a few people from the dead uh good luck there God bless you all

52:03

and I'm moving towards the future so my future thing has already been

52:09

rebuilt rebuilding as I'm speaking to you I'm leaving all that stuff in the past I'm not interested in any of it

52:16

actually so 2004 um 2024 sorry uh I'll be uh I'll be

52:25

looking at uh becoming a lawyer as well uh as part of my ongoing education and

52:31

what they call a Juris doctor so uh you know I've already got one medical degree and so the next one's a

52:38

lawyer so that should make things interesting shouldn't it

52:43

good luck challenging mine Integrity the various characters and the ones that know me know that I don't mix words or

52:50

muck around with um characters who don't know what they're talking about they're on a different

52:57

level I only associate with people who do know what they're talking about okay including in martial arts all right okay

53:04

Graham Healey over and out hope you enjoyed this little uh uh trademark for dummies and uh

53:11

um um laundering money for dummies and tax law for dummies have a good day over and

53:16

out
